

Good Looking and Intelligent..... Bathroom Fittings

Not content with just launching a range of great looking bathroom fittings that co-ordinate with a hugely successful line of door and furniture handles.

The boys at Turnstyle also wanted to make a range that simply worked better, “good design must function as well as it looks” is the principle Turnstyle have built their reputation on, always looking to improve the functionality of a product as well as the aesthetic design.

The new Recess range of bathroom fittings has a toilet paper holder that has a simple but ingenious hinged arm that allows a very quick and easy change of toilet paper.

The hand towel loop, is not a loop but a triangle. Ensuring the towel sits flat on the bar. All designs are fixed with a concealed fixing that is incredibly easy to fit.

The range is available with leather (either stitched in or out) as well as six different designs of composites including Shagreen

Composite Alupewt

Recess Blue Leather
