

SHAGREEN THE GREEN WAY

Shagreen, originally made for roughly tanned horse hide and now from Ray or Shark Skin... is very much in demand at the moment. It has been used in hundreds of colours on countless applications, from furniture to handbags and jewellery.

Turnstyle has brought out a range of hand cast faux Shagreen door hardware that looks, feels and lasts like the real thing without adding further to the destruction of the worlds Ray and Shark population (already severely threatened).

Cast in Turnstyles unique, tough composite blends, it is available in a range of stock colours as well as custom finishes to suit customers requirements.

The collection includes door levers, bathroom fittings, door pulls and cabinet handles.
