

THE PERFECT TONE

Two new door levers have been launched by Turnstyle, to co-ordinate with the recent range of Tone cabinet handles, designed by Christina Roberts.

Simple and bold, the designs are deliberately larger than normal door levers to make more of a statement whilst still working ergonomically.

The Panini is a soft square edged graduating *block*, finishing with a rounded concaved end. The grip is made from Turnstyle's Composites and available in all eight finishes, this works off a square edged base and rose of brass. Available in a range of plated finishes.

The Cone is a simple cone shape grip, with convex end set on a barrel base and round rose, again composite grip and plated brass body and Rose.

Simple, contemporary and a sure to be classics for the future
